

Custom design services

From Design Concept thru Final Deployment

Complete Semi-Custom and Custom Product Design

Complete Engineering & Manufacturing

Design for Manufacturability

Design for Serviceability

Brand through Design

Strategic Consulting

Custom design services

Spoint routinely develops custom and semi custom interactive self-service and kiosk products for our customers. Given the nature of the self-service marketplace, approx 75% of our core business is custom in nature.

Spoint offers complete design and manufacturing services from product conceptualization through final deployment and ongoing support. These combined with our industry recognized strategic consulting practice, brings together the necessary skills and capabilities to provide complete solutions for our customers.

Our customers benefit from this approach through lowered administrative expense, quicker time-to-market, greater market acceptance, and higher quality assurance for their self-service products. Our design process has been previously recognized and awarded by IDSA and industry consortia.

At Spoint, we firmly believe that product design, including the nature of the user interaction, is vital to any successful product.
